H Sketch Map of Site Location: (Optional)

Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

(See Attached)

I Description of Site: (Optional)

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

Prior to 1974, all industrial wastewater flowed to two sand filter beds and a sledge settling basin which then filtered down into the ground and ran into a Spring Creek tributary. This wastewater consisted of plating room, cooling, and sanitary effluent.

Since 1974, all wastewater discharges are being diverted to the Decatur Sanitary District Sewer System. Only storm water run-off enters the abandoned waste treatment system.

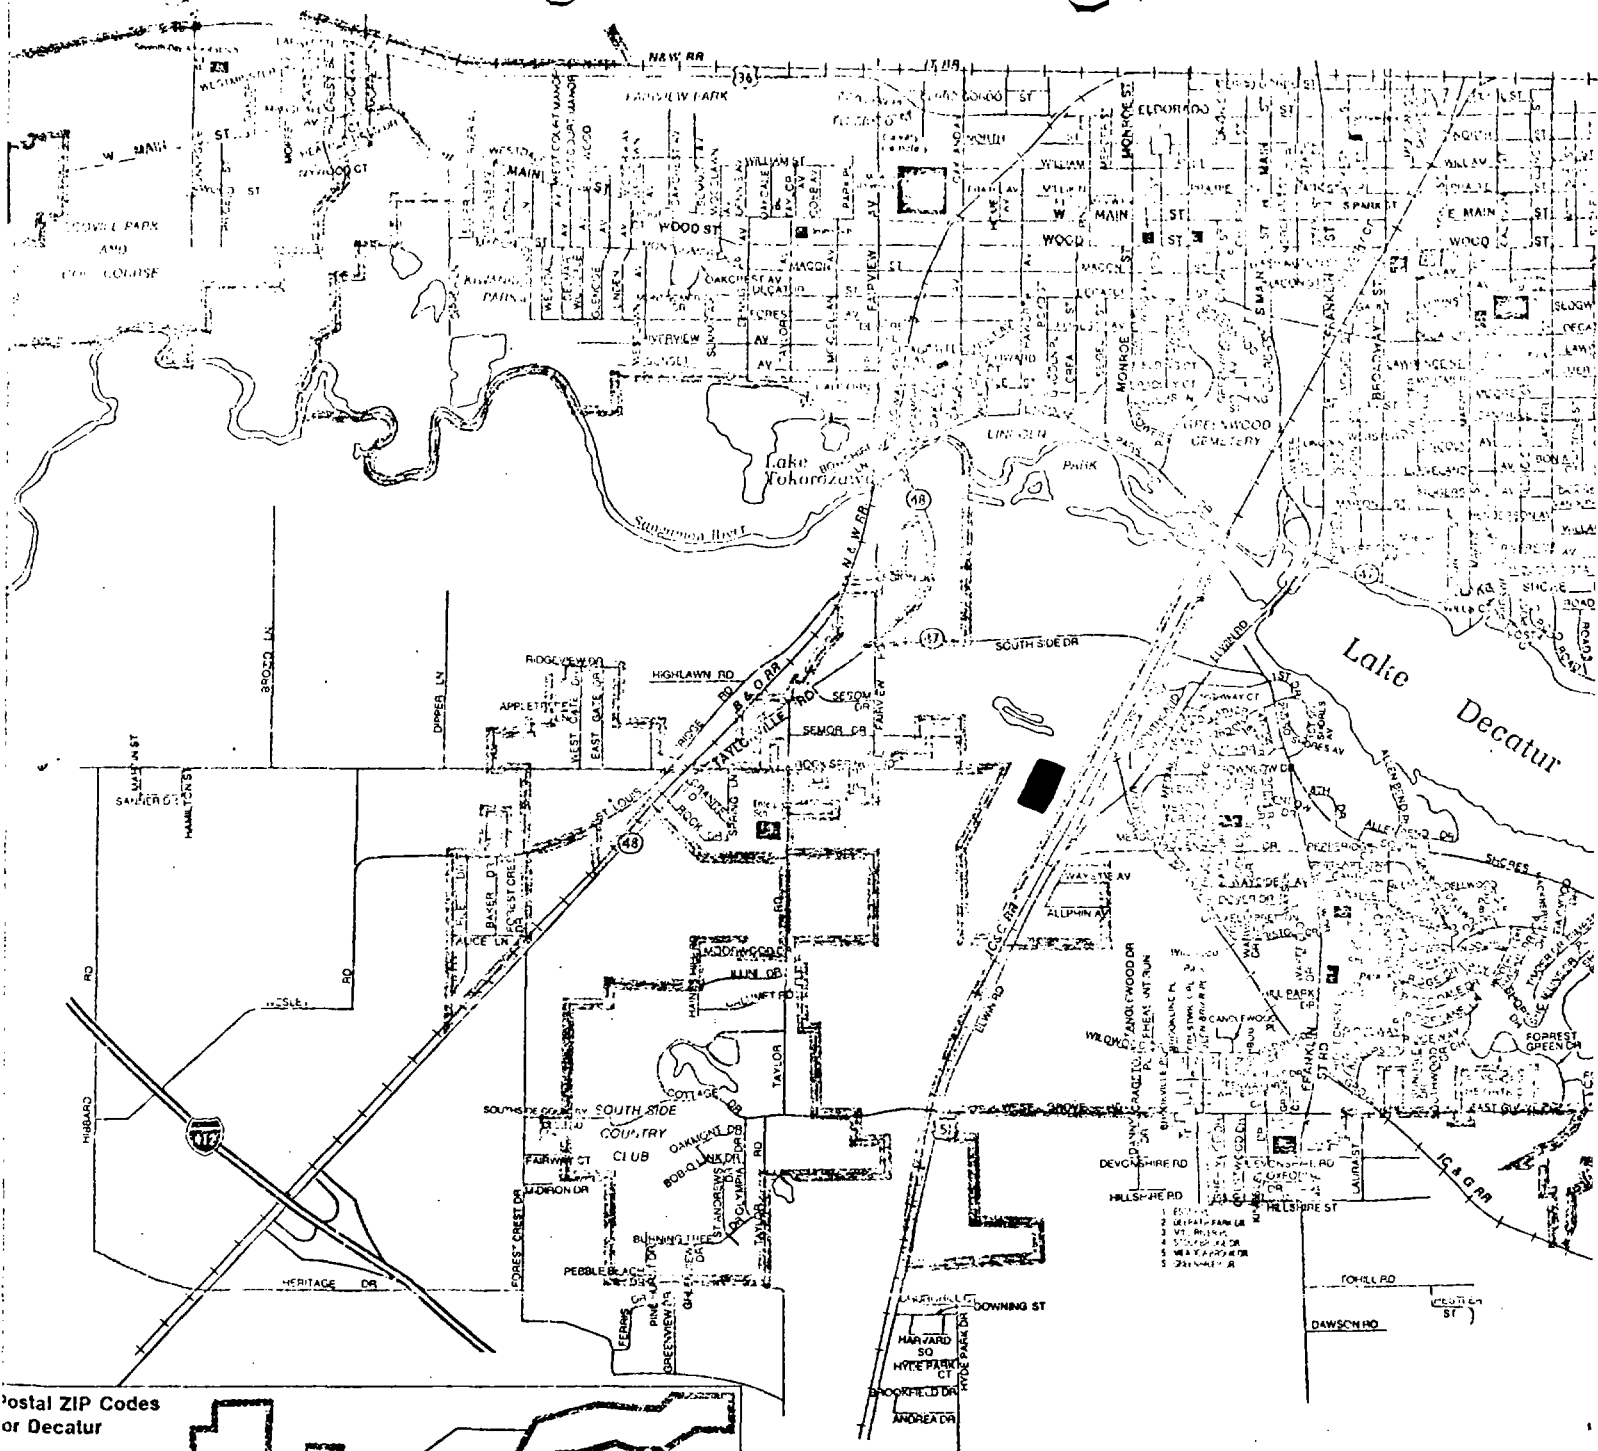

J Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".
